I-280/Wolfe Road Interchange Improvement Project

Overview

The Santa Clara Valley Transportation Authority (VTA), in cooperation with the City of Cupertino and the California Department of Transportation (Caltrans), proposes to modify the Wolfe Road interchange on Interstate 280 (I-280) in the City of Cupertino.

Objectives

The purpose of this project is to improve traffic operations and provide facilities for multimodal forms of transportation including bicycle, pedestrian and high occupancy vehicle uses at the I-280 and Wolfe Road interchange in the City of Cupertino.

Project Features

The proposed improvements may include, but are not limited to, the following:

- Replace the existing Wolfe Road structure over I-280 with a wider structure to better meet transportation needs including complete streets elements such as wider sidewalks;
- Construct new on-ramps and off-ramps;
- Modify existing local street intersections and upgrade bicycle and pedestrian facilities along Wolfe Road; and
- Construct retaining walls and sound walls as needed.

Capital Cost/Project Funding

The project cost is estimated to be between \$80 million and \$90 million, contingent on the final determination of improvements. The project is to be funded by a combination of VTA 2016 Measure B, local funds and other funds as available.

Project Schedule

Alternatives Analysis and Preliminary Engineering	6/2016-6/2017 <i>completed</i>
Environmental Approval	7/2017-11/2020 <i>completed</i>
Design Completion	2020-2022
Project Construction*	2023-2025

* Full funding for this phase of the project has not yet been identified.
