

HOW DID THE COMMUNITY SHAPE THE

CENTRAL BIKEWAY

The community participated during **four** distinct project rounds in **2020–2022**

WHAT DID WE HEAR?

HOW WAS IT USED?

WHO DID WE HEAR FROM?

1

listen/frame

Vision for the Central Bikeway, Key destinations, Existing barriers to biking and walking

Informed the project vision and goals + shaped the evaluation process

500+ contributors
47% would use the Central Bikeway to commute to work, school, or another destination

2

collaborate/evaluate

Preferences and priorities between the Central Bikeway alternatives and bikeway types

Integrated into criteria to help identify one preferred alternative

1,400+ contributors
Nearly 30% of respondents are new users who don't currently ride a bike or only ride for recreation

3

refine/design

Preferences on design features and amenities

Integrated into final Basis of Design Plans to shape the vision for the Central Bikeway

700+ contributors
Being "separated from traffic" is the most important Central Bikeway design feature

4

finalize

Feedback on the Draft Study and Basis of Design Plans

Reviewed by policymakers and community leaders

City Council Members, City Staff, VTA Board Members

The Final Central Bikeway Study is available! Check it out: www.vta.org/projects/central-bikeway-study

Thousands of community members helped create the Central Bikeway through meetings, pop-up events, surveys, e-blasts, and social media
